Lira 85 - 6° Piso
Teléfonos: 384 6270 - 384 6280

Dear Dr. Vaughan

Rp.:

We evaluated Mr
Rivadeneira, his PSA
is rising (0,45 to 1,0)
The Bone scan actually
is negative.

He is under full
hormone blockade, with
Lupron 11,5 and Fostamide
For the next month we
change the Fostamide

for Bicalutamide 50 mg
1 pill / day.

I hope the PSA
continue down in the
next evaluation.

Regards

Dr Velez
